Introduction

Delightsomelands Limited, Inc. is a multifaceted 501(c)(3) nonprofit organization based in Blaine, Minnesota. Founded by Olaide Ayeni in 2017, our organization exists to provide relief and support to assimilating immigrants and other disadvantaged families. We provide aid in the subject areas of social and mental health, with our focus divided between our two locations: here in Minnesota, and in Lagos, Nigeria. Delightsomelands has the overarching goal of helping everyone that wants to realize and live the American Dream do just that.

Need for Our Programs

Newly immigrated families and people are at high risk for mental health problems. Stressors in an unknown environment are abundant and can range from language differences to cultural differences, like cuisine or social status. Despite the data available, there are surprisingly little resources dedicated to social and mental health for immigrants and other similarly disadvantaged people. Delightsomelands specializes in helping just that: we want to help ease the stressors of moving to an unknown area, all the while concentrating our efforts and resources on other disadvantaged families. In Nigeria and, in the future, other parts of Africa, we also provide poverty alleviation programs and education materials.

Delightsomelands Limited seeks community support in its goal to fully implement our two chapter programs, in the both the United States and Lagos, Nigeria. Sponsorship will go toward the purchasing of a permanent location where we can host our psychoeducation programs and collect donations to distribute across the United States and Africa.

Our Solutions

Delightsomelands currently has many main focuses for our United States chapter: our back-to-school programs, food drives, sexual abuse awareness campaigns, and educational materials for people newly immigrated to the United States. We also assist families who have a child in Child Protective Services, and help connect them to resources. In Lagos, we host our “Christmas Without Tears” event, where we distribute food, clothing, and Christmas trees. For many children, this is the first time they see a Christmas tree. For 2021, we provided over 200 care packages, bringing our grand total to over 500.

We recently received a donation from a local bakery for over 100 loaves of bread in our Nigeria chapter. We commonly receive in-kind donations locally for distribution – and gladly welcome more – but need financial contributions to continue our programs and to begin to implement our mental-health based services. With your help, it is our goal to continue to grow and help more families and children in need.
